Stockton Coastal Collaborative

Math and Science Partnerships Program – July 1, 2016-June 30, 2018

Funded by the New Jersey Department of Education

Through a team that includes faculty and staff from the School of Education, including its Southern Regional Institute and ETTC, and the School of Natural Sciences and Mathematics (NAMS), Stockton University will lead a cohort of teachers from five K-8 school districts in a 2-year project that will explore the instructional shifts required to successfully implement the Next Generation Science Standards (NGSS). A needs analysis of the districts, all sending districts to the Greater Egg Harbor Regional High School District, indicates that as many as 60% of the teachers have not participated in any professional development related to NGSS. Administrators from each partner district also reported that their most important need with respect to NGSS is professional development for their teachers.

High-quality professional learning opportunities as well as continuous interaction with faculty from the University will support 35 participating teachers from Galloway Twp. Schools, Port Republic School, Hamilton Twp. Schools, Mullica Twp. Schools, and Egg Harbor City Schools as they build their capacity to become effective leaders in their own districts and across the state in both the pedagogy and the science content required for systemic adoption and implementation of the new standards.

Under the direction of the School of Education, participating teachers will be introduced to the tenets of ambitious science instruction which encourage students to understand science ideas, participate in the discourses of the discipline, and solve authentic problems. Central to this project will be opportunities to strengthen participants' content knowledge within the context of instructional practices. Utilizing the laboratories and classrooms of Stockton's new Unified Science Center and its Nacote Creek Marine Science Field Station, the NAMS faculty will offer a rich program of content-specific sessions to align with participants' needs and the NGSS implementation schedule while faculty from the School of Education will support content with pedagogical strategies that will lead to more effective classroom practices.

An additional partner in this initiative will be Stockton's STEM Collaborative, a newly funded program at the University. The intent of this cross disciplinary program is to serve as a clearinghouse for its constituent groups in each of the academic schools and match faculty/staff with opportunities to support STEM/STEAM initiatives at the University, in K-12 schools, and in the community.

**Principal Investigators:** Dr. Kimberly Lebak, Associate Professor of Education, Ms. Patricia Weeks, Director of the Southern Regional Institute and ETTC.

**Year Two Funding:** $184,402

- Disabilities Studies minor: Disability Studies is an interdisciplinary field of study that examines the meaning, nature, and consequences of disability as a social, cultural, and political construct. It focuses on how disability is defined and represented in society. The new Disability Studies minor will be housed in the School of Education with Dr. Priti Haria as the Coordinator. Lydia Fecteau was the primary author of the proposal. |
| **Report of the Student Affairs and Planning Committee** | Dr. Thomasa Gonzalez, Vice President for Student Affairs, announced the committee’s meeting discussion on student programs this semester. Dr. Pedro Santana, Dean of Students, announced the nominations for the Distinguished Board of Trustees Fellowships. |
| **Report of the Finance and Professional Services Committee** | Trustee Ellis called upon Vice President Ingram to report on Committee activity, which included the following:

Report of the Audit Committee

Trustee Ciccone, Audit Committee Chair, reported that, as required every three years, the Audit Committee reviewed proposals for the University’s external auditor and selected Grant Thornton, the previous auditors for the university. They are initiating a new audit on Risk Management.

Approval of Actions for University Policies

President Kesselman recommended Board approval of the following policies, which was a Second Reading:

Division of Administration and Finance - New Policy:
- I-67: Disability, Accessibility, and Reasonable Accommodations

Stockton University Board of Trustees - Revised Policies:
- I-9: University Board of Trustee By-Laws
- VI-89: Internal Audit

Upon a motion duly made by Trustee Worthington and seconded by Trustee Bailey, the Board voted to adopt the resolution.

President Kesselman presented the Board with one policy as a First Reading. This policy will be recommended for Board approval at the July 5, 2017 meeting.

Office of the President - Revised Policy:
- I-4: Mission Statement
| Personnel Actions Resolutions | Chairperson Deininger announced that the Board reviewed the Personnel Actions Resolution, which was posted on the Board’s website for review.  

**Upon a motion duly made by Trustee Valentin and seconded by Trustee Worthington, the Board voted to adopt the resolution.** |
| Other Business | President Kesselman announced the promotion of Mrs. Patricia W. Collins, Special Assistant to the Chief of Staff and Board Liaison, to Community Engagement Liaison in the Stockton Center for Community Engagement effective May 8, 2017. Mrs. Collins has been with the Office of the President since 2000, and has worked closely with the Board of Trustees. President Kesselman presented Mrs. Collins with a Certificate of Appreciation, to which she followed with brief remarks of mutual admiration.  

President Kesselman introduced Stockton’s new Executive Director of Athletics and Recreation, Kevin McHugh and his wife, Bonnie. Mr. McHugh comes to us from The College of New Jersey and most recently, Bates College. He will officially begin on July 1, 2017.  

Provost Vermeulen recognized and congratulated the faculty who have been recommended for tenure and/or promotion at this Board Meeting. |
| Comments from the Board | Chairperson Deininger acknowledged receipt of the resolution presented to the Trustees from the faculty, and commented that the Board of Trustees is aware of the situation with the negotiations with the SFT, CWA and PBA. Stockton University is unable to respond to the questions raised although President Kesselman has previously stated the University’s position on the issues. |
| Comments from the Public | Dr. Anne Pomeroy, President of Stockton Federation of Teachers (SFT) and Professor of Philosophy, read a statement from the Stockton Federation of Teachers and the Stockton University Faculty Senate:  

“I think you know me. For those in the audience who may not, my name is Anne Pomeroy and I am a Professor of Philosophy and the current President of the Stockton Federation of Teachers. Actually (you may be glad to hear) that this is the last occasion on which I will stand before you as President of the Union – as of July 1st, Professor Rodger Jackson will take over as President (Rodger please stand). Rodger is responsible for all of our organizing this past year – I think he’s done a heck of a job.  

Each member of the Board of Trustees received a series of questions and answers that led to a resolution. Allow me to explain why the SFT felt that this resolution was necessary. As those entrusted with the duty to oversee the business of the University, we felt that it was imperative for the board to weigh in on the issues pertaining to contract negotiations. The SFT fully understands that the Board does not negotiate this contract, but terms of the contract have wide-ranging effects upon the University to which you have duty of oversight. We fully believe that the members’ contract negotiations are hanging upon several resolutions that have come from a handful of the College and University Presidents. At least one of these items is not only unreasonable and irrational, but would result in a massive quantity of administrative work to implement, and would be damaging to the faculty, to staff, to students, to the entirety of the curriculum, and to Stockton University. We certainly do not need that kind of disruption at a time when we are trying to expand in the community. So, this is the reasoning behind the resolution we have presented to you. The majority of reasonable and good willed University Presidents should not be held hostage by the minority – Stockton’s leadership needs to speak out. We need a contract and we need the terms of that contract to be reasonable for the University’s mission. |
Furthermore, of course, we need that contract to be fair for faculty and professional staff. I have in the past made you aware of the fact that the SFT members have not received increases in take home pay in six years – two of those years the result of our not having a new contract. But I am not sure you fully understand the impact. So, I brought with me today a selection of testimonials from members speaking to how the lack of a contract has affected them: I would like to read you portions of these letters.

They are far more eloquent than I could ever be – I want theirs to be the last voices you hear from me.” Dr. Pomeroy read portions of a number of impassioned letters from union members.

Professor EvaMarie DiGiorgio, Associate Professor of Writing, GENS, spoke of her life as a graduate of Stockton, her teaching experiences at Stockton for the last ten years, and the honor she feels to work alongside her mentors and former teachers. She spoke of the sacrifice of retroactive steps during the last round of negotiations, which occurred at the same time she was tenured and promoted, as well as her request for Board members to show OER and the Governor that the Board stands with the faculty and staff, by passing the resolution previously given to the Board.

Mike (student) expressed his anger and frustration with the administration and the Board for their lack of appreciation of the value of the faculty and the faculty’s support of the students.

Dr. Michael McGarvey, Professor of Art, ARHU, and a delegate from Stockton Federation of Teachers, stated since the Department of Higher Education disbanded in 1995, there has been less funding per student given to the public colleges and universities, while the K-12 funding has increased, while technology grants for students have increased considerably. He also reminded the group that negotiating locally would be a violation of the agreement since only one bargaining unit exists.

Dr. Rodger Jackson, incoming President of SFT, spoke of the honor and pride to fight for the rights of the SFT faculty and professional staff.

President Kesselman commented that Chairperson Deininger previously responded to two of the union’s questions when she stated that as part of the budget process the University set aside the financial package to match the package received by IFPTE. He is well informed of the issues and agrees that some issues discussed by the union and management team may not fit well for Stockton and that has been articulated. He will continue to do what he can within the laws and statutes. The issue of retroactivity to FY16 is a difficult one, and although it has been budgeted, it’s not the only form of compensation, which includes pension and health care. President Kesselman also implored the faculty and staff to stand as a united group, as Stockton faculty and staff have done throughout its history.

Chairperson Deininger thanked everyone for attending the meeting and for their well-articulated, moving comments.
