

# FAMILY SUCCESS CENTER

Strengthening Families, Supporting Neighborhoods, Building Communities

Family Success Centers are safe and welcoming neighborhood gathering places where any community resident can go for support, information and resources. We offer numerous family oriented programs and strength-based activities for all ages. Family Success Centers connect families to resources in the community, and strengthens connections between parents and children through fun and educational activities. In every FSC all activities are always free and voluntary.

## Why Family Success Centers?

Family Success Centers provide safe, warm and welcoming locations for families to grow and thrive utilizing the Protective Factors framework.

Family Success Centers work collaboratively with community agencies to provide knowledge and activities that match up with the current community needs and desires.

Family Success Centers' caring and committed staff treat all people with respect and dignity as well as see the strength and potential in everyone.

Family Success Centers break away from traditional targeted, time constrained, casualty based interventions and use a strength-based approach of organizing resources to support the growth and development of families.

“Come on in and visit your neighborhood gathering place...”
