

Transforming Child Welfare Through Anti-Racism

Module 1:

History | Data | Policy | Evolutionary and Revolutionary Change

Reflection questions from Module 1:

- 1) What incremental/evolutionary changes have you witnessed or been involved with while you have been in child welfare?
 - Ponder if those changes made sustainable differences in the lives of vulnerable families. If not, what revolutionary aspect was missing?
- 2) What is a revolutionary idea that you have that would meaningfully impact the lives of minority families, and the system broadly? (Consider sharing this with a colleague).
