

5 EASY WAYS TO ENGAGE YOUR STUDENTS WITH NEARPOD

What is Nearpod

An edutainment platform that makes any lesson interactive, whether in-face or virtual. You can create interactive presentations, quizzes, polls, videos, collaborative boards, & more! Check out www.nearpod.com for more information.

Bring Your Classes to Life by:

1 Simple Presentation Delivery

You can upload or 'drop & drag' your Google or PowerPoint slides right into Nearpod! Enhance your presentation with the addition of interactive activities.

2 Asynchronous & Synchronous Delivery

You can deliver content as a student-paced lesson or a live & in-person discussion. Both methods allow you to use a multimodal approach to deliver content & assess student learning.

3 Distributing Resources

Nearpod allows you to load resources (i.e., articles, notes, worksheets, websites, etc.) in your presentations that can be accessed & used by the students.

4 Formative Assessment in Real-Time

Incorporate quizzes, polls, open-ended questions, matching pairs, collaborative boards & more into the presentation to gain insight into your students understanding of the lesson.

5 Capturing Participation Reports

You can check your students' attendance & progress on quizzes & activities within the report feature of Nearpod.
