

Cape May County Technical High School Early Childhood Development Center Lab School for preschool-age children

The ECDC introduces children to a balanced program of interaction with friends in both teacher-directed and child-directed experiences. The daily schedule includes a wide range of free choice activities, both large and small group activities, and indoor/outdoor play.

Centers within the classroom include, but are not limited to, woodworking, blocks, dramatic play, dollhouse, sensorial, sand/water play, language arts and math, practical life and art center, the easel, library, Lego table, manipulative hands-on area, science, pre-writing, and computer center. Children are encouraged to use these centers through the planning board.

The planning board helps the children to make decisions and learn responsibility. The program is child-centered and based on the fact that play is the best way for children to learn. The professional staff encourages exploration and growth through small and large group activities such as: art, social studies, math, language arts, creative movement, and science.
