

The Freehold Regional High School District (FRHSD) is searching for a Technology Education Long-Term substitute teacher for March - June 2022. The teaching load would consist of Web Design, Design Tech, & Video courses. The Web Design courses are part of a Career & Technical Education (CTE) pathway that focuses on coding with the aid of platforms such as GitHub.

Please share this message with anyone who may be interested. This would be a great match for a student interested in Technology Education who is graduating in December and considering a career in the education sector.

If you have any questions, please feel free to reach out. If anyone is interested, please have them visit the link below to apply for this position on AppliTrack.
