

HAZARD COMMUNICATION AWARENESS TRAINING

I acknowledge that I have received the following initial-specific hazard communication training on the proper use, storage and disposal of hazardous materials given to me by my supervisor. I also acknowledge that I have the opportunity to request additional information during the course of my employment.

Subject	Initials
Chemical and physical properties of the hazardous materials (e.g., flash point, reactivity) and methods used in the work area to detect the presence or release of hazardous chemicals (including the chemicals in piping systems).	
The location of MSDS's, HSFS's, list of hazardous chemicals (RTK Survey with Updates) and any other related information on their areas.	
All sections of relevant MSDS's and HSFS's.	
Container labels and hazards.	
Relevant Standard Operation Procedures to assure protection when cleaning up hazardous chemical spills and leaks.	
Provided with, and demonstrated, the proper use of relevant Personal Protective Equipment (PPE).	
The use of control measures and procedures to prevent exposure.	
The location(s) of hazardous materials, their use, storage and disposal procedures.
