Ospreys Navigate

Call for volunteers

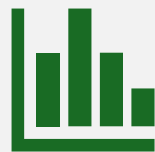

# What is 'Ospreys Navigate'?

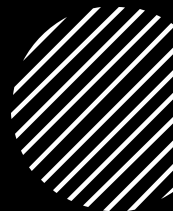

Ospreys Navigate is a digital platform that is designed to support student success in college

Utilizes data and user feedback to help staff, faculty, and students communicate about student interests and concerns efficiently

# Expectations for Ospreys Navigate Pilot

Pilot volunteers can expect to use Ospreys Navigate to:

Submit and receive early alerts

Provide mid-semester progress checks

Schedule appointments with students

Add and view precepting notes

View student academic progress

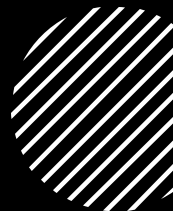

Contribute to a communication system

Help develop a student support response network

# Why volunteer?

## It is important and valuable

- Faculty input is needed as we develop this tool
- Gradual rollout of software will help with wider adoption

## It is low stakes

- Need to push the software and the system to its limits
- Find bugs or issues before wider deployment
- Engage with software and share feedback iteratively

## Training and support will be provided

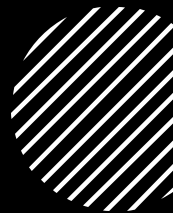

- Help us develop best practices for all stakeholders

## Volunteering does not ensure selection

- Small (10-15 faculty) pilot in Fall 24; Larger pilot in Spring 25

I'm  
interested!  
How can I  
learn more?

## Drop-in information session during Welcome Day

- F-222 from 12-2
- Zoom link will be provided

## Contact faculty/staff working group member

- Heather McGovern
- Mariana Smith
- Kerri Sowers
- Lauren Fonseca
- Ariane Newman

Interested volunteers- fill out form on
