

**Stockton University**  
**Master of Science in Communication Sciences and Disorders Program**  
**July 1, 2020 to June 30, 2026**

**Executive Summary**

*Note: Stockton University notified all programs of a new strategic plan to be implemented during the 2025-26 academic year. Since the program's strategic plans must align with the university plan, the MCSD faculty unanimously voted to continue the current plan for one more year. The new program strategic plan will be developed and implemented by June 30, 2026.*

Stockton University's Strategic Plan addresses six key areas of focus, each of which builds on the institutional commitments articulated in the University's Mission, Vision, and Values statements. The MCSD faculty along with input from staff, students, alumni, and Advisory Board Members have prepared the Communication Sciences and Disorders Program Strategic Plan which aligns with the University's Strategic Plan and the mission and values of the Communication Sciences and Disorders Program.

*The mission of the Master of Science in Communication Sciences and Disorders Program is to prepare students for New Jersey Licensure and for certification by the American Speech-Language-Hearing Association in speech-language pathology, as well as for certification as Speech-Language Specialists by the New Jersey Department of Education; to demonstrate the principles of evidence-based practice; to provide opportunities for continuing education; and to provide direct clinical services to the surrounding community.*

*The vision of the Master of Science in Communication Sciences and Disorders Program is to be the premiere program for the study of communication sciences and disorders in Southern New Jersey.*

The core values of the Master of Science in Communication Sciences and Disorders Program align with those of the University and ASHA

- Excellence in teaching and dedication to learning;
- Inclusion and Diversity;
- Integrity and Respect;
- Community Engagement;

The Strategic Plan for the Communication Sciences and Disorders Program aligns specifically with the following key areas and associated outcomes of the University Strategic Plan: Teaching and Learning; Diversity and Inclusion.
