

Bachelor of Science in  
**HEALTH SCIENCE**

## Bachelor of Science in Health Science | BSHS

The BSHS Program prepares students for a range of career options, from entry level positions in the health care system to admission into graduate or professional programs in disciplines such as medicine, dentistry, nursing, pharmacy, physician assistant, physical therapy, occupational therapy, and speech-language pathology. Through an interdisciplinary approach, students are provided with the underpinnings of interprofessional collaborative practice in health care and acquire foundational understanding of the interrelationships among health professionals.

### Requirements for a Bachelor of Science in Health Science:

- Open to all Stockton students in good academic standing.
- An SAT Math score of 570 (ACT Math score of 24) is required for all concentrations of study. Students who do not meet the Math requirement may be admitted conditionally.
- Stockton University's Bachelor of Science in Health Science typically takes four years of full time study to complete, however part-time study is available.

### CONDITIONAL ADMISSION TO THE PROGRAM

Students who do not meet the mathematics requirement may request to the Admissions Office a Conditional Admission to the BSHS program General Concentration. The Conditional Admission will grant students one academic year to complete the necessary sequence of math courses in order to meet the mathematics requirement. Students admitted under a conditional admission will be eligible to register in HLTH1101 (Introduction to Health Sciences) and/or in HLTH 1241 (Medical Terminology for Health Science).
