Effective Date: August 6, 2013; February 13, 2023
Index Cross-References: II-24 – Double Major Procedure
Procedure File Number: 2022
Approved By: Dr. Harvey Kesselman, President

1. The double major consists of two majors that lead to the same baccalaureate degree: either the Bachelor of Arts or the Bachelor of Science, but not a combination of the two. Both majors must be completed in their entirety at the time of graduation.
2. The student, in consultation with faculty preceptors from both majors, will choose which major will be the primary major that will be listed first on the student's education record. The student's secondary major will be listed second.
3. A student who has completed at least one semester at Stockton may declare a double major in accordance with the definition and parameters described above using the Change of Major / Minor form in the student portal.
4. Courses used to satisfy the requirements of a student's primary major may also be used to satisfy the requirements of an approved secondary major.
5. Courses common to both majors may be counted toward the requirements of each major. Other course substitutions may be possible.
6. The minimum number of credits required for the double major is the same as for any other degree program: 128.
7. Students who graduate with a double major will receive only one degree. Both majors will be listed on the transcript.
8. Written approval for this program must be secured from a faculty preceptor and the program chair in both majors.
9. For purposes of participation in the commencement ceremony, it is assumed that the student in the double major program will march with the School that houses the primary major. If the student wishes to march with the School that houses the secondary major, the student must indicate that preference at the time of application for graduation.
10. Appeals to any aspect of the policy on double majors should be made to the Office of the Provost.
