

Transfer Seminars – Fall 2020

[In Course Registration – Search by Attribute “Transfer Seminar,” or under Enter CRNs tab use 5-digit CRN listed below.]

Title	Subject	Course #	Section	CRN	Instructor	Meeting Times	Campus	Attribute
Black Comedy	Africana Studies	3148	001	80160	Patricia Reid-Merritt	Tuesday & Thursday, 10:30-12:20	Galloway	International/Multicultural ("I")

This course examines the history of Black comedy and the role of the Black comedian in raising issues of social concern through performance. Videos of stand-up performances from various eras will be analyzed.

Introduction to the Criminal Justice System	Criminal Justice	1100	006	81524	Richard Mulvihill	Tuesday & Thursday, 2:30-4:20	Galloway
---	------------------	------	-----	-------	-------------------	-------------------------------	----------

This core course is an introductory survey of the various components and the procedures employed in the American criminal justice system. Course material is primarily drawn from the disciplines of sociology, political science, and law, but all of the social sciences contribute to the content of the course.

Puerto Rico: Society & Culture	GAH	2363	091	82040	Arnaldo Cordero-Roman	Wednesday, 6:00-7:50	Manahawkin	International/ Multicultural ("I")
--------------------------------	-----	------	-----	-------	-----------------------	----------------------	------------	---------------------------------------

Since 1898, Puerto Rico has been a territorial possession of the United States. This course will address diverse issues such as race, emigration, economic dependency, autonomy, citizenship and language imposition, among other debated topics, that have affected Puerto Rican society and culture.

Yosemite: Nature & Culture	GIS	4665	091	80329	Kate Ogden	Online	N/A
----------------------------	-----	------	-----	-------	------------	--------	-----

This course focuses on a single spectacular landscape site—California’s Yosemite Valley—and considers this locale from a variety of perspectives including science, history, and art. We will begin with the geological origins of the valley, its discovery and history, its importance in the environmental movement, and its interpretation in paintings and photographs.

Intro to Health Sciences*	Health Science	1101	092	80982	MaryAnne Peters	Monday & Wednesday, 2:10-3:25	Galloway
---------------------------	----------------	------	-----	-------	-----------------	-------------------------------	----------

***This course is only available for students in the School of Health Sciences.**

This is an introductory course specifically designed to meet the needs of students interested in a variety of health related professions. Through an interdisciplinary approach, students are provided with the underpinnings of the Core Competencies for Interprofessional Collaborative Practice (IPCP). Students will gain a beginning understanding of the US health care system and health professions.
