### **#2: General Studies courses – open to all students and all majors**

All students take 25% of their coursework in General Studies. If you are a freshman, this means 8 courses; if you are transferring in as a senior, this means 2 courses. You may also take additional General Studies to fulfill At-Some-distance courses. All students must take a GIS course.

|     |   |
|-----|---|
| GAH | General Arts and Humanities   |
| GEN | General Interdisciplinary Skill   |
| GIS | General Integration & Synthesis (all students need at least one GIS to graduate; open to juniors/seniors) |
| GNM | General Natural Science and Mathematics   |
| GSS | General Social Science  |

### **#3: Non-SOBL courses (outside Social and Behavioral Sciences)**

Most transfer students (especially juniors or seniors) may need to focus on course requirements in their major (program), cognates (courses related to their major), or specific General Studies courses, but you may take other non-SOBL courses (in other academic Schools) to fulfill your At-Some-Distance requirements. A guide to non-SOBL acronyms is below; additional Gxx courses beyond the minimum requirements may also fulfill your ASD as long as you do not exceed the limit for a particular Gxx acronym (3 for B.S. and 4 for B.A.)
